side of Virginia—Test Case.

Mr. Justice Crutchield handed down an opinion on yesterday that will interest not only those who shoot, but those who devoir game.

Although no person within the State may have in his possession any game killed or taken within Virginia, yet any person may have in his possession game that has been killed outside of the State. In a word, any hotel or restaurant may purchase birds out of season outside of the State and serve such birds to guests. The question came ur at the trial of the Southern Express Company, charged with having in its possession a deep. The season closed on January 1, 196, and Caprain W. T. Lynham, Richmond's game warden, preferred the charge.

It developed that the buck had been slipped from Vicksburg, Mass. by Mr. Frank W. Alle to Mr. Charles E. Bolling, superintendent of the city water words. The Express Company notified Mr. Bolling and the game warden and asked for instructions as to what disposition should be made of the shipment. Horetofore all game shipped into Nichmond out of scaton has been turned out that the party water words and has been found in the city water words. The proposed into Nichmond out of scaton has been turned out to the various hospitals, but it was desired that a decision would be formally made, and so the matter in question was used as a test case.

Several days ago Dancy spread a petition among the colored people and other citizens, in which he appealed for funds to assist him in employing counsel. Up to last night he had received but one reply, and this was to the amount, of twenty-live cents.

One of the most remarkable facis connected with his case is that John C. Dancy, recorder of deeds in Washington, who is drawing a salary of 4,000 a year, has not answered a letter recently written him by Peter. He is a first cousin and halls from North Carolina.

Yestorday Dancy was asked what line of defense he would put up. He said: "Boss, I don't exactly know what you mean." "Will you plead guilty?" He replied: "Yessar, I killed the woman, but was not mad when I did it, it was an accident." A neero lawyer, Lewis, will represent him.

The evidence against Dancy is exceedingly strong, and he has but few witnesses who will testify in his behalf.
